

COMPANY PROFILE 2025

PT. IDE BRILIAN DIGITAL

WHO WE ARE

"We are a Software Development Company that focuses on implementing the latest technology to help our clients grow their businesses. With over 10 years of experience, our team has consistently demonstrated excellence in software, web, and mobile application development.

Throughout these years, we have found immense joy in designing MVPs for startups and taking on challenging 'deadline-was-yesterday' projects for companies and government entities.

Furthermore, we have a deep passion for blockchain technology, as we believe it has applications beyond cryptocurrencies, serving as a trusted solution wherever truth and transparency are essential."

OUR BEST SERVICES

CRYPTOCURRENCY EXCHANGE

We are a development team with extensive experience in building cryptocurrency exchanges. We are ready to develop a custom application for you.

CRYPTOCURRENCY WALLET

Wallets and sales systems are crucial components for cryptocurrencies and tokens. Various wallets and applications can be developed to connect to the blockchain of your choice.

SMART CONTRACT

We specialize in smart contract development, offering a wide range of solutions from simple to highly complex projects. Our experienced team has successfully implemented numerous Smart Contracts for various institutions within the Indonesian Government.

SOFTWARE DEVELOPMENT

We have extensive experience in developing web applications and/or mobile applications. Just tell us about your business, and we will transform it into the perfect digital solution
